Exclusive Post-Conference
Trip to Elafonissi beach

29 JUNE

Enjoy the sea and sun
in the exotic beach of
Elafonissi with the
pinkish sand and the
turquoise waters.

Natural Beauty

Board the bus in the morning towards Elafonisi Bay, an oblong peninsula 76km west of Chania which is often torn by the sea water in two parts, giving the impression of a separate island. Exotic beaches with white sand and turquoise waters reminiscent of the Caribbean are formed on either side of the peninsula. The sand is pinkish in many places, taking its color from thousands of broken shells. Elafonisi is a “Natura 2000” protected area. The island is full of dunes with sand lilies and junipers (like-cedar trees). The endangered turtle caretta – caretta and several rare animals nest on the island and it is strictly forbidden to remove any plants, animals and sand from the area.

Remember to bring sunscreen, sunglasses & hat, long-sleeved shirt for sensitive skin, bottle of water & light snack, swimsuit and a beach towel.
